IQRA IQBAL

Hello My name is Iqra Iqbal . I am a Software Developer. I made different efficient projects using C and C plus plus programming language. Currently I start to work on Python development.

I also work on web development and made a dynamic website. I am interested in front end development. I have a great project building and time management skills. I enjoy to work as a team leader or group member.

A passionate, goal-driven individual eager to learn new things and explore new opportunities
